Pipers Capture Both Divisions At District

Performing before a grandstand full of Hamlin fans, the Pied Pipers turned the District 5-AA championship race into a cake walk as they more than doubled the points of their nearest opponent. Hamlin scored 183 points to runner-up Stamford's 80.

First Baptist to Use New Building Sunday

Members of First Baptist Church will use the new educational building for the first time Sunday morning, according to Lynn Mink, music-education director.

A workday has been planned after the carpet installation is complete. This was expected to be finished yesterday (Wednesday). Pianos, tables and other Sunday School equipment will have to be moved from the old building to make ready for use Easter morning, Mink said.

The new structure south of the sanctuary will accommodate four Sunday School Departments. Meeting in the new facility will be four women's classes, the men's Bible Class, Youth III, and Young Adults.

The classrooms, parlor, Fellowship Hall and hallways are carpeted. The Fellowship Hall may be partitioned with the folding doors.

The new facility includes a fully equipped kitchen,

complete with new refrigerator-freezer, two electric ranges with double ovens and an ice maker.

The church has also purchased the Meek property just east of the new educational building. Bids are being accepted on the house and (or) garage to be moved. This space will be used for parking.

The building follows the same architecture as the sanctuary and chapel and will feature art glass windows. The pastor, the Rev. Howard Jones, said that most of the art glass windows had been given as memorials.

A formal dedication service will be planned at a later date.

Church members have been participating in a program of increased attendance and a goal of over 500 members in Sunday School has been set for Easter Sunday.

The old building on the north will be removed in the near future.

And What Have You

By BOB CRAIG

From the size of the Hamlin crowd at Anson Friday night for the District Track Meet it was obvious that Piper fans have been waiting all season to see their team run close enough to home for them to attend.

The stream of cars coming home looked more like the aftermath of a football game than it did a track meet.

And the fans were not disappointed as they watched the Pipers just about make a clean sweep of the whole meet. In fact, local fans enjoyed an extra bonus when our younger boys captured the Freshman division title to go along with the varsity title.

To us at least, this fine showing by the younger boys was most gratifying. It would be most disappointing to see our track program slip back after two most successful years. But apparently we will not have this worry as we still seem to have lots of talent just waiting to be developed.

One thing that I would like to see at track meets would be some method of picking the six winners that would be a little more accurate than the method now being used. Two years in a row now Hamlin has had a boy finish in the first six in the 100 only to have the men picking the winners miss him.

Last year it was Albert McAfee who came in about fourth only to be missed by the man picking fourth place and this year it was Oscar

FIFTY YEARS AGO
(April 4, 1924)

The scholastic census has just been completed by Mr. R. A. Wood and he reports that there are 651 children between the ages of seven and eighteen in the district. This is an increase of twenty over last year.

The Hamlin School Parent-Teacher Association will have their regular monthly meeting on Monday evening, Apr. 7, at 8 p.m. in the School Auditorium.

Last week those who are closest to the road question in Hamlin were made happy by the information for the Highway Department, that the road from Stamford to Hamlin had been designated as a State Highway. There is no further information yet as to which way the new line will extend from Hamlin. It must go either of two ways, west to Rotan or north through Aspermont.

Fred B. Moore says his flock of 65 town hens are working over time these days. During the month of March they produced 1564 eggs. It will be remembered that this same bunch of hens produced 1314 eggs in February.

Saturday night, Apr. 5, a series of meetings will begin at the Christian Church in McCaulley. Evangelist C. D. Record of McKinney will do the preaching. Everyone is invited to attend the meetings.

TWENTY YEARS AGO
(April 9, 1954)

Four completions of good oil producers and one location were tabulated on the oil scene in the Hamlin territory during the past few days to maintain the accelerated development of the area. Several other sites are in the process of announcement.

Several Hamlin Boy Scouts are scheduled to be up for advancement Monday evening at 7 p.m. when the northern district Boy Scout court of honor will be held in the Paint Creek School. Paint Creek Scout troop will be host to the entire district, which includes all of Haskell, Jones and Shackelford counties.

Six members of the Hamlin High School Chapter of Future Farmers of America were honored last Thursday evening for their outstanding records in FFA work during the past club year, when the annual son-parent banquet was staged in the Primary School cafeteria. Nearly 200 boys, their parents, members of the school board and guests attended the affair, which opened with a buffet style barbecue supper.

Continued from page 1

Marshall's turn to be overlooked. Maybe they are just trying to tell us that we are not supposed to have three in the finals in the 100, but still it has to be a great disappointment to Oscar.

It would be bad enough to finish fourth and get picked fifth but not be picked at all is a gross injustice.

Hopefully someone will come up with a method to video-tape the finish of the shorter races so that when there is a question the tape can be run and the winners determined.

Since it is less than a month until the first Democratic Primary it is about time to begin giving consideration to what candidates to support.

In some races the choice may be difficult to make, but it would seem to me that the choice is an easy one in the race for governor. Since Dolph Briscoe will be seeking his second term in that office, I can see no reason not to support him for it.

While admittedly, he has not been one of our more glamorous governors, he has done a good job. Probably his low-key approach to this office has been one of his major assets.

Under his administration we seem to be going quietly about the business of running the affairs of state without going from one crisis to the next. Many special interest groups, I am sure feel that he is either going too slow or not doing enough.

But when you stop and think about it, this go slow approach is rather refreshing. Our whole nation for the past couple of decades seems to be hell-bent on solving all of our many problems overnight. And the chief result so far has been creating more problems than we solve.

By and large, Briscoe has quietly gone about the job of making Texas a good governor. He has done this without the normal bickering between the top elected officials of the state and without leading us in and out of one crisis after another.

Unfortunately, this low-key approach to our state government will probably mean low voter interest in this election. It may take local and district races to bring out the voters in any number. And this is always dangerous because special interest groups always have the edge when the voter turnout is low.

LOOKING HER BEST FOR

Easter is a day of conquest . . . a day of new life . . . a day of beginnings . . . This is the day that our Saviour arose in a mighty triumph over the grave. This is a day of joy . . . a day to remember . . . a day to attend services in the church that our Lord loved so much, but even though we all want to dress up and look our best for this special day it is not the most important part. for God does not look on outward appearances, but looks on the heart.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

MAKING ENCLOSURE FOR TRAILERS—Hamlin Future Farmers of America members are shown putting the wire netting on the enclosure to be used for the trailers in the waste paper drive. The steel pipe structure is located on Southeast Avenue A on a lot owned by Raymond Scifres. Residents are urged to carry papers and magazines neatly tied or boxed and place them in the trailer. Proceeds from the sale of the waste paper to Celotex Corporation are used in various youth activities here.

FOR YOUTH PROGRAMS—

Waste Paper Recycles Into Money

Waste Paper can be recycled into money, it is being learned here as money received from the continuing waste paper drive is averaging \$175 to \$200 per month to be used for youth activities in Hamlin.

The project was started in the spring of 1972 when a source of income was desperately needed for the local swimming pool. Arrangements were made with Celotex Corporation and

an agreement was made to buy paper exclusively from the Board of Community Development, which had become the collection station. Since that time the price of paper has increased and more paper has been collected. With the added income, the BCD was able to further expand the youth activities with a summer recreational program. Now the Child Day Care Center will receive some of the

funds.

Since 1972, \$2,506.17 has been received from the sale of the waste paper.

Prior to Public School Open House activities in March, 1972, members of the second grade classes decided on an ecology project to recycle waste papers. They brought papers to the school which were later taken to the BCD office.

The second grade has continued this project and each week they weigh their papers. So far this year they have collected 776 pounds.

A special fenced in area has been built on the lot behind the BCD office in the 300 Block east of South Central. The trailers are parked here and when filled they are taken to Celotex. Special days are designated to receive paper at the plant.

When more paper was needed at Celotex than was being collected at the BCD, the plant began buying from school groups from Aspermont, Old Glory and Roby.

Little League members have started a collection and Ralph Ferguson has placed a trailer at McCoy Funeral Home for this group. Adults working with the baseball program are urging the Little League players to take an active part in collecting papers.

Mrs. L. C. Bonds, secretary-manager of the BCD, said that the most consistent contributors to the drive are older people who do not have children at home. One lady, she said, is over 80 years old and no longer takes a paper because she cannot see to read, but this does not keep

her from collecting papers from her neighbors for the drive. She has the waste paper neatly arranged in heavy grocery bags when it is turned in.

Other contributors carefully tie the papers in neat bundles, Mrs. Bonds said. One lady even saves flattened cereal boxes and other cardboard boxes, she said.

About four trailer loads from the BCD are carried out each month, Mrs. Bonds said. More could be accepted at Celotex, according to plant personnel, so Hamlin residents are urged to continue saving the waste paper to turn it into revenue to help the youth of Hamlin.

Papers and magazines (no plastic, please) should be tied in bundles, sacked or boxed before being carried to the collection station.

NEWS FROM Sylvester

By MRS. R. M. BABB

Lovely cool day and no rain but we are glad we are alive, aren't we?

Mrs. Velma Reed and her son Bill and family drove to Breckenridge Sunday afternoon and along with relatives there were some 20 of them enjoyed a fish fry. Seems the Loys Smiths are doing real well and send their regards.

Mrs. Cora Roberts made a trip to Dallas last week and visited with her sister, Gracie Young.

Seems we have a couple of ladies that feel they have reached the age of Senior Citizens. Anyway, they had a birthday party in the basement of the Methodist Church one night last week. I believe everyone had a good

time. The next time you see either Alma Scott or Polly Maberry be very kind to them. Help them across the street if need be!

Mr. and Mrs. Woodrow Lawlis were in Ballinger on business one day last week.

Eric Prather enjoyed the weekend in the home of his grandparents. They took him back to Sweetwater Sunday afternoon.

Mr. and Mrs. Jonah Self drove to Amarillo Thursday and back to Lubbock for his check up. They brought the granddaughters home with them for the Easter holidays.

Have you noticed the new white pick up Ross Douglass is driving?

Clyde Pursley has been listed as one of the Outstanding Students of the School of Agriculture at Texas A & M. His picture was in the Aggie Bulletin.

The Purvis family of Irving and the Dobbs family of Big

Spring were in the home of their parents, Mr. and Mrs. Woodrow Lawlis. The Purvis children will stay the week Mr. and Mrs. Wesley Maberry and Don Kelly's son came along with his Mother spent the weekend here in the Richard Kelly and J. P. Maberry homes. They all returned to Irving Sunday afternoon and Don's son and Mother flew on to Austin.

Cancer Drive

Mrs. Robert (Marge) Fowler, chairman of the Cancer Drive in Hamlin, reports a total of \$1,248 collected in the drive now underway.

Workers of several streets have not reported their collections at this time, she added.

Little League Girls Needed

If there are any more girls who are interested in playing Little League baseball, they should contact Ralph Ferguson. Several more girls need to sign up to complete the program, he said.

State Rep. Elmer Martin is a worker, not a talker. He honestly gets jobs done—quietly, effectively. Of the 77 first-year State Representatives last term, only 10 passed more Legislation than he did.

His record: He sponsored or carried 7 bills that were adopted into law. He sponsored or co-sponsored 2 major House Resolutions influencing Washington. He sponsored an 8th bill adopted by the House and ninth that was reported favorably out of Committee, but caught by House adjournment before floor vote.

His amendment to the important Appropriations Bill, a blow for technical-vocational education in West Texas, was adopted. That's an enviable record. But Elmer Martin has been getting jobs done for the people since first receiving state wide acclaim while Mitchell County Judge as leader for all Texas with countywide re-districting.

ANOTHER GREAT VARIETY FROM ROGERS DELINTED COTTONSEED

Texas cotton growers from the Valley to the high plains are reporting favorably their results of planting the new QUAPAW Cotton from Rogers Delinted. Such comments as, "...the cotton strips and gins good and I am increasing my planting next year." QUAPAW cotton has a medium size storm resistant boll and good seedling vigor with medium size seed. QUAPAW responds well to single row, skip row or narrow row spacing. It harvests well with strippers or spindle pickers. QUAPAW gins good and cleans up good with extra high quality fiber.

District P-TA Luncheon Deadline Set

Reservations must be in by Apr. 15 for the noon luncheon of the 18th District Parent-Teachers Spring Conference to be held here Apr. 24 in First Baptist Church.

Highlighting the session will be the topic of school financing. "Why do some schools seem better equipped than others? What does one district have that enables it to develop and offer extra courses? Why do some students have access to more counseling services than others?" will be among the items of discussion.

Most people have a very limited understanding of the actual way schools are funded and the reasons behind apparent inequities, according to the Texas Congress of Parents and Teachers. A film presentation made in cooperation with the Texas Education Agency, "The Dollar, the Scholar and You," is being presented at the state P-TA 22 District Conferences this spring.

DISTRICT CHAMPS—The Hamlin Pied Pipers were easy victors in the District Track meet held in Anson Friday, scoring 183 points to second place Stamford's 80. In the top picture at left David Willis and Ronnie Maberry go over the final hurdle to finish one and two in the highs. Pictured in the top picture (right) Bill Cork helps set a new record in the mile relay with a time of 3:25.2. Johnny Jones, pictured bottom left, ties the record in the 100 with a time of 9.9 and at right Steve Evans wins the 880 with a time of 2:04.2.

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

From the size of the Hamlin crowd at Anson Friday night for the District Track Meet it was obvious that Piper fans have been waiting all season to see their team run close enough to home for them to attend.

The stream of cars coming home looked more like the aftermath of a football game than it did a track meet.

And the fans were not disappointed as they watched the Pipers just about make a clean sweep of the whole meet. In fact, local fans enjoyed an extra bonus when our younger boys captured the Freshman division title to go along with the varsity title.

To us at least, this fine showing by the younger boys was most gratifying. It would be most disappointing to see our track program slip back after two most successful years. But apparently we will not have this worry as we still seem to have lots of talent just waiting to be developed.

One thing that I would like to see at track meets would be some method of picking the six winners that would be a little more accurate than the method now being used. Two years in a row now Hamlin has had a boy finish in the first six in the 100 only to have the men picking the winners miss him.

Last year it was Albert McAfee who came in about fourth only to be missed by the man picking fourth place and this year it was Oscar

First Baptist to Use New Building Sunday

Members of First Baptist Church will use the new educational building for the first time Sunday morning, according to Lynn Mink, music education director.

A workday has been planned after the carpet installation is complete. This was expected to be finished yesterday (Wednesday). Pianos, tables and other Sunday School equipment will have to be moved from the old building to make ready for use Easter morning, Mink said.

The new structure south of the sanctuary will accommodate four Sunday School Departments. Meeting in the new facility will be four women's classes, the men's Bible Class, Youth III, and Young Adults.

The classrooms, parlor, Fellowship Hall and hallways are carpeted. The Fellowship Hall may be partitioned with the folding doors.

The new facility includes a fully equipped kitchen,

complete with new refrigerator-freezer, two electric ranges with double ovens and an ice maker.

The church has also purchased the Meek property just east of the new educational building. Bids are being accepted on the house and (or) garage to be moved. This space will be used for parking.

The building follows the same architecture as the sanctuary and chapel and will feature art glass windows. The pastor, the Rev. Howard Jones, said that most of the art glass windows had been given as memorials.

A formal dedication service will be planned at a later date.

Church members have been participating in a program of increased attendance and a goal of over 500 members in Sunday School has been set for Easter Sunday.

The old building on the north will be removed in the near future.

FROM THE FILES . . .

FIFTY YEARS AGO
(April 4, 1924)

The scholastic census has just been completed by Mr. R. A. Wood and he reports that there are 651 children between the ages of seven and eighteen in the district. This is an increase of twenty over last year.

The Hamlin School Parent-Teacher Association will have their regular monthly meeting on Monday evening, Apr. 7, at 8 p.m. in the School Auditorium.

Last week those who are closest to the road question in Hamlin were made happy by the information for the Highway Department, that the road from Stamford to Hamlin had been designated as a State Highway. There is no further information yet as to which way the new line will extend from Hamlin. It must go either of two ways, west to Rotan or north through Aspermont.

Fred B. Moore says his flock of 65 town hens are working over time these days. During the month of March they produced 1564 eggs. It will be remembered that this same bunch of hens produced 1314 eggs in February.

Saturday night, Apr. 5, a series of meetings will begin at the Christian Church in McCaulley. Evangelist C. D. Record of McKinney will do the preaching. Everyone is invited to attend the meetings.

TWENTY YEARS AGO
(April 9, 1954)

Four completions of good oil producers and one location were tabulated on the oil scene in the Hamlin territory during the past few days to maintain the accelerated development of the area. Several other sites are in the process of announcement.

Several Hamlin Boy Scouts are scheduled to be up for advancement Monday evening at 7 p.m. when the northern district Boy Scout court of honor will be held in the Paint Creek School. Paint Creek Scout troop will be host to the entire district, which includes all of Haskell, Jones and Shackelford counties.

Six members of the Hamlin High School Chapter of Future Farmers of America were honored last Thursday evening for their outstanding records in FFA work during the past club year, when the annual son-parent banquet was staged in the Primary School cafeteria. Nearly 200 boys, their parents, members of the school board and guests attended the affair, which opened with a buffet style barbecue supper.

NEWS AND VIEWS. . .

And What Have You

Continued from page 1

Marshall's turn to be overlooked. Maybe they are just trying to tell us that we are not supposed to have three in the finals in the 100, but still it has to be a great disappointment to Oscar.

It would be bad enough to finish fourth and get picked fifth but not be picked at all is a gross injustice. Hopefully someone will come up with a method to video-tape the finish of the shorter races so that when there is a question the tape can be run and the winners determined.

Since it is less than a month until the first Democratic Primary it is about time to begin giving consideration to what candidates to support.

In some races the choice may be difficult to make, but it would seem to me that the choice is an easy one in the race for governor. Since Dolph Briscoe will be seeking his second term in that office, I can see no reason not to support him for it.

While admittedly, he has not been one of our more glamorous governors, he has done a good job. Probably his low-key approach to this office has been one of his major assets.

Under his administration we seem to be going quietly about the business of running the affairs of state without going from one crisis to the next. Many special interest groups, I am sure feel that he is either going too slow or not doing enough.

But when you stop and think about it, this go slow approach is rather refreshing. Our whole nation for the past couple of decades seems to be hell-bent on solving all of our many problems overnight. And the chief result so far has been creating more problems than we solve.

By and large, Briscoe has quietly gone about the job of making Texas a good governor. He has done this without the normal bickering between the top elected officials of the state and without leading us in and out of one crisis after another.

Unfortunately, this low-key approach to our state government will probably mean low voter interest in this election. It may take local and district races to bring out the voters in any number. And this is always dangerous because special interest groups always have the edge when the voter turnout is low.

LOOKING HER BEST FOR *Easter*

Easter is a day of conquest . . . a day of new life . . . a day of beginnings. . . . This is the day that our Saviour arose in a mighty triumph over the grave. This is a day of joy . . . a day to remember . . . a day to attend services in the church that our Lord loved so much, but even though we all want to dress up and look our best for this special day it is not the most important part, for God does not look on outward appearances, but looks on the heart.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

MAKING ENCLOSURE FOR TRAILERS—Hamlin Future Farmers of America members are shown putting the wire netting on the enclosure to be used for the trailers in the waste paper drive. The steel pipe structure is located on Southeast Avenue A on a lot owned by Raymond Scifres. Residents are urged to carry papers and magazines neatly tied or boxed and place them in the trailer. Proceeds from the sale of the waste paper to Celotex Corporation are used in various youth activities here.

FOR YOUTH PROGRAMS—

Waste Paper Recycles Into Money

Waste Paper can be recycled into money, it is being learned here as money received from the continuing waste paper drive is averaging \$175 to \$200 per month to be used for youth activities in Hamlin.

The project was started in the spring of 1972 when a source of income was desperately needed for the local swimming pool. Arrangements were made with Celotex Corporation and

an agreement was made to buy paper exclusively from the Board of Community Development, which had become the collection station. Since that time the price of paper has increased and more paper has been collected. With the added income, the BCD was able to further expand the youth activities with a summer recreational program. Now the Child Day Care Center will receive some of the

funds.

Since 1972, \$2,506.17 has been received from the sale of the waste paper.

Prior to Public School Open House activities in March, 1972, members of the second grade classes decided on an ecology project to recycle waste papers. They brought papers to the school which were later taken to the BCD office.

The second grade has continued this project and each week they weigh their papers. So far this year they have collected 776 pounds.

A special fenced in area has been built on the lot behind the BCD office in the 300 Block east of South Central. The trailers are parked here and when filled they are taken to Celotex. Special days are designated to receive paper at the plant.

When more paper was needed at Celotex than was being collected at the BCD, the plant began buying from school groups from Aspermont, Old Glory and Roby.

Little League members have started a collection and Ralph Ferguson has placed a trailer at McCoy Funeral Home for this group. Adults working with the baseball program are urging the Little League players to take an active part in collecting papers.

Mrs. L. C. Bonds, secretary-manager of the BCD, said that the most consistent contributors to the drive are older people who do not have children at home. One lady, she said, is over 80 years old and no longer takes a paper because she cannot see to read, but this does not keep

her from collecting papers from her neighbors for the drive. She has the waste paper neatly arranged in heavy grocery bags when it is turned in.

Other contributors carefully tie the papers in neat bundles, Mrs. Bonds said. One lady even saves flattened cereal boxes and other cardboard boxes, she said.

About four trailer loads from the BCD are carried out each month, Mrs. Bonds said. More could be accepted at Celotex, according to plant personnel, so Hamlin residents are urged to continue saving the waste paper to turn it into revenue to help the youth of Hamlin.

Papers and magazines (no plastic, please) should be tied in bundles, sacked or boxed before being carried to the collection station.

Lovely cool day and no rain but we are glad we are alive, aren't we?

Mrs. Velma Reed and her son Bill and family drove to Breckenridge Sunday afternoon and along with relatives there were some 20 of them enjoyed a fish fry. Seems the Loys Smiths are doing real well and send their regards.

Mrs. Cora Roberts made a trip to Dallas last week and visited with her sister, Gracie Young.

Seems we have a couple of ladies that feel they have reached the age of Senior Citizens. Anyway, they had a birthday party in the basement of the Methodist Church one night last week. I believe everyone had a good

time. The next time you see either Alma Scott or Polly Maberry be very kind to them. Help them across the street if need be!

Mr. and Mrs. Woodrow Lawlis were in Ballinger on business one day last week.

Eric Prather enjoyed the weekend in the home of his grandparents. They took him back to Sweetwater Sunday afternoon.

Mr. and Mrs. Jonah Self drove to Amarillo Thursday and back to Lubbock for his check up. They brought the granddaughters home with them for the Easter holidays.

Have you noticed the new white pick up Ross Douglass is driving?

State Rep. Elmer Martin is a worker, not a talker. He honestly gets jobs done—quietly, effectively. Of the 77 first-year State Representatives last term, only 10 passed more Legislation than he did.

His record: He sponsored or carried 7 bills that were adopted into law. He sponsored or co-sponsored 2 major House Resolutions influencing Washington. He sponsored an 8th bill adopted by the House and ninth that was reported favorably out of Committee, but caught by House adjournment before floor vote.

His amendment to the important Appropriations Bill, a blow for technical-vocational education in West Texas, was adopted. That's an enviable record. But Elmer Martin has been getting jobs done for the people since first receiving state wide acclaim while Mitchell County Judge as leader for all Texas with countywide re-districting.

11 Students Take GED Tests At Rotan

Eleven students from the Hamlin Adult Education Class participated in the GED testing session at Rotan Saturday under the direction of Mrs. Ruby Hamric, chief examiner for the GED test center.

Each of the students took either two or three of the five tests in the series. The next three scheduled test dates are May 4, May 28, and June 1. Taking the tests were Maurine Bigham, Deborah Brown, Bobbie Burleson, Janie Cork, Larry Marshall, Gloria Mendoza, Elaine Reed, Joy Spalding, Willie Spalding, Marge Ward and Dorothy Williams.

Anyone with questions concerning the testing program should call Mrs. Hamric at 735-3370 after 5 p.m. in Rotan or at the Rotan Community Center on Tuesday or Thursday evenings from 6:30 to 9 p.m.

Each test cost is \$3 payable at the time the test is taken. Mrs. Hamric said that 30 Fisher county residents have received their GED certificates equivalent to high school diploma from the Texas Education Agency since the adult education program was started last September.

Mrs. Hamric said "If you do not have your high school diploma, you are urged to consider this means of completing your high school education."

Mrs. Pena At Workshop

Mrs. Chris Pena, Parent School Community Involvement worker, attended a three-day workshop in Austin Apr. 3-5 on Parental and Community Involvement. Also attending from Hamlin was a member of the local Parent Advisory Committee, Mrs. Joe Cortez. Jones County is the only county involved in the Parental Involvement program in Region XIV, which is comprised of 13 counties. This program involves Anson, Stamford, and the Hamlin Independent School Districts. It is one of the pilot sites for the state of Texas for this program. It is unique in that this is the only county-wide program being piloted in the state of Texas.

ANOTHER GREAT VARIETY FROM ROGERS DELINTED COTTONSEED

Texas cotton growers from the Valley to the high plains are reporting favorably their results of planting the new QUAPAW Cotton from Rogers Delinted. Such comments as, "...the cotton strips and gins good and I am increasing my planting next year." QUAPAW cotton has a

medium size storm resistant boll and good seedling vigor with medium size seed. QUAPAW responds well to single row, skip row or narrow row spacing. It harvests well with strippers or spindle pickers. QUAPAW gins good and cleans up good with extra high quality fiber.

District P-TA Luncheon Deadline Set

Reservations must be in by Apr. 15 for the noon luncheon of the 18th District Parent-Teachers Spring Conference to be held here Apr. 24 in First Baptist Church.

Highlighting the session will be the topic of school financing. "Why do some schools seem better equipped than others? What does one district have that enables it to develop and offer extra courses? Why do some students have access to more counseling services than others?" will be among the items of discussion.

Most people have a very limited understanding of the actual way schools are funded and the reasons behind apparent inequities, according to the Texas Congress of Parents and Teachers. A film presentation made in cooperation with the Texas Education Agency, "The Dollar, the Scholar and You," is being presented at the state P-TA 22 District Conferences this spring.
